

THE μ LTRA COMPACT TURNKEY SOLUTION FOR THE PRODUCTION LINE

TESA μ -HITE

COMPACT & ULTRA-PRECISE

HIGH ACCURACY

Need a "turnkey solution"?

With its application range of 100 mm, this measuring station for workshops and laboratories is particularly suitable for measuring small parts.

Installed quickly, its high accuracy (1 μ m) not only matches the most powerful height gauges, but also 1D probes, which are often expensive to install and less flexible in terms of application.

Part number	TESA μ -HITE		Retrofit kit for previous generation of μ -HITE
